## Summary

I am a student pursuing a Bachelor of Technology degree in Computer Science at Siddhartha Institute of Technology & Science, with a passion for web development and a keen interest in learning new technologies. I have completed multiple courses and certifications on Udemy, and I have gained hands-on experience with front-end development tools such as ReactJS, Redux, TailWindCSS, Bootstrap, and Git.

Currently, I am working as an internship trainee at 10000 Coders, where I am developing user-friendly and dynamic web applications that leverage APIs for data fetching. One of my notable projects is "E-Prathibha", an online platform that helps students prepare for UPSSC examinations. This project showcases my ability to create impactful and responsive applications using ReactJS and other frameworks. I believe in continuous learning and improvement, and I am always looking for new challenges and opportunities to collaborate and create amazing things. Let's connect and explore how we can work together!

## Experience

### Internship Trainee

10000 Coders

Aug 2023 - Present (8 months)

### Data Scientist

Verzeo

Aug 2022 - Oct 2022 (3 months)

## Education

Bachelor of Technology - BTech, Computer science

Aug 2019 - Aug 2023

## Licenses & Certifications

Udemy certified Full stack developer - Udemy

## Skills

Front-End Development • Vite • MongoDB • TypeScript • Express.js • Node.js • Tailwind CSS • Vanilla JavaScript • HTML • Bootstrap (Framework)
